<b>CS Zielversion:</b>			

#### Beschreibung

The linker already knows the icon addresses.

Looking up the icon addresses at start works fine but takes some time.

This is ok when the media is dynamic (exchangable) but not needed for fixed theme.

Create "constexpr const" references in library.

#### Historie

##### #1 - 09.01.2025 16:06 - Maximilian Seesslen

Looks like there is something implemented. But documentation about generated header is completely missing.
